Please contact JTGrenough@aol.com for personal service
from an actual human.

I can provide more information about availability and pricing
of the photographs as well as answering any other questions
you might have.

Fine Art · Limited Edition Artwork · World-Class NATURE Photography

I capture moments in time that will never occur again. In the gallery below you will find a variety of the best fine art photography for sale - all of which are gallery quality prints designed for individual purchasers. My composition techniques are dramatic and my post-production skills often create almost a painted texture to my photography. Just as Ansel Adam's works of art can never be recreated, neither can mine. Limited editions tend to be printed in quantities of 500 or less, and once the last one is completed, no more will ever be made. I offer traditional Photo Prints (just the print - not framed) to collectors for those that prefer to handle the external framing themselves. I provide free standard delivery to any

destination in the USA. Our prints are museum-grade. In America we refer to these as “Giclée Prints” or Archival Prints. According to Fine Art archivists, Museum Quality Prints will highly resist fading under normal conditions for 100-150 years. Your chosen art piece can be treasured for generations to come.

- Our Photographic Fine Art for sale are all Limited Editions.
- They are all accompanied by a Certificate of Authenticity.
- Luxury Fine Art Limited Editions possess the highest artistic and visual value.

If I were to open a physical gallery, I would need to triple my pricing structure overnight. This increase in cost would not add any value whatsoever. That’s the reason my prices below are so extremely reasonable.

In every walk with nature one receives far more than he seeks.

John Muir

How to Order?

If you are interested in purchasing a print for your home or office, reach out via email to JTGrenough@aol.com with your desired size and finish, and the number or name of the print. Keep reading below to see sizes and

types of finish. *You can right-click on any photo on my website, and you then choose to open the photo for viewing on a large scale in a new window. The filename also reveals the name or the number of the print.*

LANDSCAPES AND TROPICAL SEASCAPES

- If you simply want to buy an individual TROPICAL FINE ART print only for your personal portfolio, here are the prices below. These works are offered UNFRAMED and ready to be framed under glass after acquisition at the discretion of the buyer. We use a Fine Art Paper (not a photographic paper). *These are Giclee Fine Art Prints.* We create custom ICC profiles with a tone curve to get the best reproductions on a 12 color pigmented printer and we print in 16 bit color.
 - Print Prices \$250 for 11 x 14
 - 16 x 20 \$350
 - 24 x 36 \$450 or a 30 x 45 for \$550
 - FINE ART GICLEE' (G-CLAY) PRINTS have high resolution, clarity, archival properties and Dmax giving incredible image quality. Used by fine art photographers and painters alike for their rich color, tone and detail.
- *Canvas Prices* are available by quote since there are so many variables and a large variety of sizes available. Here are a variety of preferred sizes, and costs: 11 x 14 \$360 – 16 x 20 \$525 – 20 x 30 \$700. *These are premium canvas gallery wraps on a 1.5 inch stretcher frame.*
- *If you need a Metal Print or a custom size, just contact me. Metal Prints are printed on actual metal.* Metal Prints are created by infusing images onto aluminum with glossy metallic to matte finish options. Professional

metal photo prints are vibrant and durable. Your custom metal print will make a statement and retain its value. Metal Prints offer an incredibly brilliant, luxurious display medium for your art. Metal prints are quickly becoming the favorite medium – they are Dye sublimated, and have a much higher brightness than paper giving enhanced saturation and a silky tonal range. 11x 14 are priced at \$600. 16 x 20 are priced at \$700. 24 x 36 are priced at \$900. Aluminum is the metal of choice for a wide variety of reasons. It is very lightweight and, when made into an alloy, can even be stronger than steel, even though it is a third of the weight. These qualities make it easy to hang and mount on your walls and tough to damage or fade. It is durable, non-toxic and allows for a variety of different finishes. Aluminum's low cost and high quality also enable us to offer you beautiful, long-lasting prints at an affordable price. Normal turn: Creation times for the Metal Print is 8 business days, and then allow 5-6 days for shipping. The pricing found on this website for all pieces less than 60" includes shipping and handling at no additional cost anywhere inside the US.

- *Notes on Acrylic Prints follow* -They are waterproof and resistant to humidity. But they have a higher cost compared to other types of prints, are prone to scratching if not handled with care, and as well if they are covered with a protective coat this may be difficult to remove without scratching the print. Summarily, though acrylic prints are durable in that they protect your image for longer, they are also fragile. Additionally, most acrylic prints are not scratch-resistant. This means that, when transporting your acrylic photo prints, you are more likely to get scratches on them than your canvas prints. I also recommend Canvas prints since they are lighter than acrylic photo prints, making them easier to transport than acrylic prints. A canvas print, not to be confused

with a canvas painting, is an image printed from an inkjet printer onto canvas. Once printed, the canvas gets stretched onto a frame.

- My contact information: Email: JTGrenough@aol.com. Cell phone 727-403-9559. I live in Bokeelia, Florida on Pine Island. And of course we handle payments by PayPal.

What is Luxury Fine Art Photography?

Featuring vibrant color reproduction, remarkable definition, and minimalist appeal, our Prints are the ideal accent for those who love the finer details. Luxury fine art photography is the creation of photographic imagery of the highest quality, which is characterized by high-quality craftsmanship and artistry.

Usually unique representations of subject matter are rendered, along with perfect lighting and expert composition. Notice the photography - colors and texture are exquisite. An aesthetic and emotional appeal is created for the viewer. Luxury fine art photography represents an investment, and is often displayed in private collections and galleries. It is normally printed on limited editions and in metallic or other mediums which reflect and highlight its beauty and its subject matter.
